

Edhya CONDITIONNEUR

Equine feed supplement - Liquid form

MUSCULAR DEVELOPMENT AND RESISTANCE

Edhya CONDITIONNEUR combines amino acids, antioxidants (vitamin E and selenium), selected for their bioavailability and their role in promoting muscular development and resistance.

Lysin, essential amino acid, plays an important role in cellular multiplication and helps muscular mass growth and development.

Vitamin E and Selenium play major antioxidant roles for the muscular function.

Group B vitamins help ingestion and digestion, increasing the horse's energy reserves.

PURPOSE OF USE

- Muscular mass
- Effort resistance
- Muscular function support
- Preparation for sales

FEEDING INSTRUCTIONS - Shake well before use. Administer directly in daily feed.

- **Yearlings:** 30 ml per day for 30 days
- **Adult horses:** 50 ml (1 dose) per day for 20 days

COMPOSITION

Glycerin, Sorbitol, Maltodextrin

ANALYTICAL CONSTITUENTS

Crude Protein	23 %
Fibre	0 %
Oil	0 %
Ash	0 %
Sodium	< 0.1 %
Moisture	45.6 %

ADDITIVES (Per kg)

Vitamins

Vitamin E (3a700) 13 750 mg

Amino Acids

L-Lysine (3.2.1) 230 000 mg

Potassium sorbate (E202) 2 000 mg

Guar gum (E412) 3 000 mg

Vanilin

STORAGE

Store in a cool dry place away from direct sunlight.

PACKAGING

1L, 5L and 25 L dispenser bottles

PERFORMANCE

V200130
