

Edhya LACTO'START

Granulated feed supplement for foals

FOAL MILKY PELLETS

Edhya LACTO START is a granulated feed use from birth to weaning. Edhya LACTO START contains lactoserum and high quality proteins, for young foals' digestive system.

Edhya LACTO START is balanced in terms of minerals, vitamins and trace elements to cover the foal's nutritional needs. For an optimal assimilation, all trace elements are organic and chelated. It also provides live yeasts to secure and help digestion.
